FIG. 16

A diagram of a closed, elongated loop. A diagonal line passes through the loop from the bottom-left to the top-right. The line is labeled 167-1 at its lower end and 167-2 at its upper end. Two curved arrows are positioned along the diagonal line, both pointing towards the upper-right corner of the loop. One arrow is located in the lower half of the loop, and the other is in the upper half. The label 161 is placed to the left of the loop, with a line pointing to its upper-left boundary.
